RAJATH K MOHARE

Yelahanka, Bangalore Urban | moharerajath@gmail.com | +91 8792019764 | in/rajath-mohare-a1487b275

Career Objective

Goal-oriented AI & ML Engineer passionate about developing data-driven solutions and innovative products. Skilled in translating user needs into intelligent systems using Python, machine learning, and automation. Seeking to contribute to impactful projects that combine technical excellence and customer value.

.

Personal Strengths

Excellent communication
Time management
Quick learner
Team collaboration
Leadership & problem solving

Skills

Python, Java
TensorFlow, scikit-learn
NumPy, pandas
Deep Learning
Compute Networks
Cloud Basics

Interests

Traveling
Exploring New Ideas
Trekking

Languages

English
Kannada
Telugu
Hindi

Education

B.E. in Computer Science and Engineering (AI & ML) 2022 – Present
SJC Institute of Technology (VTU), Chickballapur
CGPA- 7.25

P.U.C 2020 – 2022
Sri Siddeshwara PU College,Davangere
Percentage- 74%

SSLC 2019 – 2020
Kendriya Vidyalaya CRPF
Percentage-50%

Projects

AI-Based Proctoring System
Developed an intelligent proctoring system to ensure fairness in online exams. Automated setup using Python virtual environments for smooth cross-platform deployment. Integrated modular execution via a centralized run.py for scalable operation.
Technologies- Python, Virtual Environment, Automation, System Deployment, Software Engineering

Autonomous Multi-Agent V2V Simulation with MetaDrive*
Developed a multi-agent simulation system enabling autonomous vehicles to communicate and coordinate using secure Vehicle-to-Vehicle (V2V) protocols. Integrated MetaDrive's environment with Python-based broadcasting and encryption modules to ensure real-time, low-latency data sharing between agents. Implemented AES-based encryption to secure inter-vehicle communication and designed algorithms for collision avoidance, cooperative decision-making, and motion planning. Achieved improved coordination, reduced collision risk, and demonstrated scalability for future V2V extensions.
Technologies: Python, MetaDrive, AES Encryption, UDP Communication, Intelligent Driver Model (IDM), Path Planning, Computer Vision, Multi-Agent Systems

Certificates

Python Fundamentals – Infosys Springboard (2024)
MongoDB Tutorial – Great Learning (2025)
Cloud Computing – Infosys Springboard (2024)
